The 14th Pacific Asia Workshop on Intelligence and Security Informatics
PAISI 2019
(to be held in conjunction with PAKDD 2019)
Workshop Website: http://www.business.hku.hk/paisi/2019/
April 14, 2019, Macau, China

Important Dates
- Submission due — December 15, 2018
- Notification of acceptance — January 27, 2019
- Camera-ready copy due — February 10, 2019

Workshop Scope

Intelligence and Security Informatics (ISI) is concerned with the study of the development and use of advanced information technologies and systems for national, international, and societal security-related applications. The annual IEEE International Conference series on ISI was started in 2003. In 2006, the Workshop on ISI was started in Singapore in conjunction with PAKDD, with most contributors and participants from the Pacific Asian region. Since then, PAISI was held annually in Chengdu (2007), Taipei (2008), Bangkok (2009), Hyderabad (2010), Beijing (2011), Kuala Lumpur (2012), Beijing (2013), Tainan (2014), Ho Chi Minh City (2015), Auckland (2016), Jeju, South Korea (2017), and Melbourne (2018). This year PAISI 2019 will once again be held in conjunction with PAKDD (http://pakdd2019.medmeeting.org) and will provide a stimulating forum for ISI researchers in Pacific Asia and other regions of the world to exchange ideas and report research progress.

Paper Submission/Areas of Interest

Submissions may include systems, methodology, testbed, modeling, evaluation, and policy papers. Topics include but are not limited to:

I. Information Sharing and Big Data Analytics	II. Infrastructure Protection and Emergency Responses	III. Cybercrime and Terrorism Informatics and Analytics	IV. Enterprise Risk Management, IS Security, and Social Media Analytics
• Intelligence-related knowledge discovery • Big data analytics and mining • Criminal data mining and network analysis • Criminal/intelligence information sharing and visualization • Web-based intelligence monitoring and analysis • Spatio-temporal data analysis/GIS for crime analysis and security informatics • Cyber-crime detection and analysis • Authorship analysis and identification • Privacy and civil liberties issues • Text processing and mining	• Public health and bioterrorism information infrastructure • Transportation and communication infrastructure protection • Cyber-infrastructure design and protection • Intrusion detection • Border/transportation safety • Emergency response and management • Disaster prevention, detection, and management • Communication and decision support for search and rescue • Infrastructure for big data analytics	• Cyber-crime and social impacts • Terrorism related analytical methodologies and software tools • Terrorism knowledge portals and databases • Social network analysis (radicalization, recruitment, conducting operations), visualization, and simulation • Forecasting terrorism • Countering terrorism • Measuring the impact of terrorism on society • Computer forensics	• Information systems security policies • Behavior issues in information systems security • Fraud detection and deception detection • Viruses and malware • Corporate going concerns and risks • Accounting and IT auditing • Corporate governance and monitoring • Board activism and influence • Corporate sentiment surveillance • Market influence analytics and media intelligence • Consumer-generated media and social media analytics

Long papers (12 pages) and short papers (6 pages) in English may be submitted electronically via the online submission site (http://www.easychair.org/conferences/?conf=paisi2019). Submission file formats are PDF, Microsoft Word, or LaTeX. Submitting a paper to the workshop means that if the paper is accepted, at least one author should attend the workshop to present the paper. All accepted PAISI 2019 papers will be published in Springer's Lecture Notes in Artificial Intelligence (LNAI) series. Required LNAI Microsoft Word/LaTeX templates can be found on the workshop website.

Hosts and Sponsors
The University of Arizona, The University of Hong Kong, Virginia Tech

Workshop Organizing Co-chairs
Michael Chau, The University of Hong Kong
G. Alan Wang, Virginia Tech
Hsinchun Chen, The University of Arizona
